ONE LINE · 19 WORDS

Prompted Brand shows brands how AI answer engines describe them, and what to do to be named more often.

BOILERPLATE · 97 WORDS

Prompted Brand Inc. (promptedbrand.com) shows brands how AI answer engines such as ChatGPT, Google AI, Gemini, Perplexity, Claude, Copilot and Meta AI describe them, and what to do to be named more often. The platform turns daily AI answers into a to-do list: content to create, sites to get cited on, wrong facts to correct and technical fixes, with workflows that do much of the work. Brands can also run AI Ads in ChatGPT, measured alongside organic visibility. Founded in the United States in 2026, Prompted Brand is available in 15 languages and serves brands and agencies worldwide.
